LOGAN COUNTY BOARD OF ELECTIONS

Poll Worker Application Form

(Please print or type)

Who is a poll worker?

A poll worker is a registered voter that is appointed by the Board of Elections to work in one of the precincts within the county.

Do I need to declare my politics?

Yes. Each precinct has an equal number of Democratic and Republican workers. If you are unaffiliated, however, you may still be eligible to work.

Will I work in my own precinct?

Most poll workers are hired as substitutes. When we use a substitute worker, that person needs to be willing and able to go to any precinct, should the need arise.

Will I be trained?

Yes. All new poll workers are required to have instruction before service as a precinct official. Additional on-line training is available on the Secretary of State's web page.

How much is a poll worker paid?

The current amount paid by Logan County for any election day poll worker is $101.50.

How long do you work?

You must report to the polling location where you are working by 5:45 AM on election day. The polls close at 7:30 PM, but you will need to remain at the polling location until your Presiding Judge has determined that you are finished for the day.

Is there lifting of equipment?

Yes. You must be able to lift or assist in lifting a 40 pound optical scanner from the ballot bin to its transport case.
